FEBRUARY FACTS...

This month is well-known for Valentine's Day, Lunar New Year and President's Day (*see quotes below from our 1st and 16th presidents*), and those who are born in February might consider yourself lucky because it is the least common birthday month. The word February itself is derived from the Latin word '*februa*' which means to cleanse. This relates to a special Roman festival of purification that was meant to promote health and fertility. The full moon in February has been named the Snow Moon, due to snowy conditions experienced in the Northern Hemisphere. However, February is the only month that may pass without a full moon. The last time this happened was in 1999, and it is projected to happen again in 2037.

GEORGE WASHINGTON FAREWELL ADDRESS | SATURDAY, SEPTEMBER 17, 1796

"However [political parties] may now and then answer popular ends, they are likely in the course of time and things, to become potent engines, by which cunning, ambitious, and unprincipled men will be enabled to subvert the power of the people and to usurp for themselves the reins of government, destroying afterwards the very engines which have lifted them to unjust dominion."

I am not bound to win, but I am bound to be true. I am not bound to succeed, but I am bound to live by the light that I have. I must stand with anybody that stands right, and stand with him while he is right, and part with him when he goes wrong.
